Work Hours:

Various work hours as necessary to fulfill operational needs ensuring the success of our projects. Typically, 10 hour days, 7am-5pm Mon-Fri and weekends as required.

Description:

Lineman will be responsible for installing and maintaining overhead, underground, transmission, and distribution systems.

We are looking for self-motivated, team player, dedicated individuals who are willing to work as part of a dynamic team that provides crucial support to ECP projects that have the ability to travel and work out of town.

Responsibilities:

- Work directly with the Project Manager / Construction Manager / General Foreman / Crew Leaders / Lineman / Apprentices in a collaborative role.
- Be a positive team member through open communication and active participation in crew tasks.
- Contribute a positive safety leadership attitude to corporate culture, promoting positive working relationships with the internal management team, site supervisors, employees, subcontractors and other contractors on site.
- Maintain personal and group safety at all times, and exercise appropriate caution when working with tension for rigging, on or close to energized equipment.
- Safe operation of heavy and tracked equipment including Radial Arm Diggers, Line Trucks, Cranes, and all terrain equipment as required.
- Operate and maintain such hand tools as may be required for the job including blocks, grips, jacks, hot line tools and cover up, etc.
- Read and interpret blueprints or process specifications
- Respond to unscheduled outages as the result of weather, component failures, vehicular accidents, etc.
- Availability to travel and work on projects across North America.
- Drive an inclusive culture to promote equity, welcome different perspectives, and enable career progression by fostering a sense of belonging.
- Ensure good housekeeping across the project site including yards, offices tool trailers and vehicles.
- Other duties may be assigned consistent with job description.

Education & Experience:

- Journeyman or Red Seal Certification.
- Valid CDL and/or Class 3 Drivers Licence.
- Valid First Aid/CPR Training.
- OSHA 10/30
- Familiar with operating various pieces of equipment, bucket trucks, Digger Derricks, truck and trailer combinations, puller / tensioners, excavators, skid steers.
- Willingness to travel for work
- Has the ability to climb, poles and towers, work at heights, and work in extreme weather conditions for extended periods of time.
- Demonstrates self-motivation, organizational skills, and rapid adaptability, able to adhere to instructions while excelling under pressure within an agile and fast-paced environment.

- Demonstrates leadership abilities that embrace the principles of continuous learning and contributes to self-growth and the growth of colleagues.
- Demonstrates strong communication skills and the ability to collaborate in a team environment.

How to Apply:

If you're interested in a career within a rapidly expanding and forward-thinking organization, kindly send your resume to admin@eastcoastpowerline.com. Please include the job title in the email subject line.

We appreciate the interest shown by all applicants for this position. Only individuals who are North American residents/citizens and are selected for an interview will be contacted.
